COURSES OF STUDY.

THE ENGLISH-SCIENTIFIC COURSE, which has now had two years of trial, has approved itself to many who could not find the time or money to take either of the other courses. It is two years shorter than the Classical Course, and one year shorter than the Latin-Scientific Course. To all who wish a liberal English education, we can confidently recommend this course as being the best possible substitute for those which we deem the best courses of study, i. e., those that give the discipline of mind that comes through the study of the classics and of the higher mathematics. The degree of BACHELOR OF SCIENCE will be given every graduate in this course.

The outlines of the three courses of study in the Collegiate and Preparatory Departments of the institution explain themselves. It is believed that these courses will continue to commend themselves as thorough, conservative and yet progressive, and as being abreast of those pursued in the best of our sister institutions.

MARYVILLE COLLEGE.

HISTORY.

Maryville College is a venerable institution. It is three-score and ten years old, for it was founded in 1819. It was born of the moral and spiritual needs of the earliest settlers of East Tennessee, chiefly Scotch-Irish Presbyterians, and was designed to educate for the ministry men who should be native to the soil. The grand motive of the founder may be stated in his own words: "LET THE DIRECTORS AND MANAGERS OF THIS SACRED INSTITUTION PROPOSE THE GLORY OF GOD AND THE ADVANCEMENT OF THAT KINGDOM PURCHASED BY THE BLOOD OF HIS ONLY BEGOTTEN SON, AS THEIR SOLE OBJECT." Inspired by such a motive, Rev. Isaac Anderson, D. D., gathered a class of five in the fall of 1819, and in prayer and faith began the work of his life. In forty-two years the institution put one hundred and fifty men into the ministry. Its endowment, gathered by littles through all these years, was only sixteen thousand dollars.

Then came the Civil War, and suspended the work of the institution for five years, and the College came out of the general wreck with little save its good name and precious history.

After the war the Synod of Tennessee, moved by a spirit of self-preservation and by a desire to promote Christian education in the Central South, resolved to revive Maryville College. The institution was re-opened in 1866. New grounds and new buildings were an imperative necessity. To meet this need, sixty-five thousand dollars were secured, and the College was saved from extinction. Five years ago a few generous friends contributed an endowment fund of one hundred thousand dollars. This has enabled the institution to enlarge its work and to enter upon a new era of usefulness and influence. Sixteen hundred students have been in attendance since the war. Of these more than one hundred have

graduated in the Classical Courses. More than fifty of these Alumni have entered the ministry. Eighteen Alumni and undergraduates have been or are missionaries in Japan, China, Corea, India, Persia, Syria, Africa and Mexico. Several are laboring in missions on the Western frontier. All the Alumni are engaged in honorable pursuits. Students who have gone from the College to theological, medical and legal schools, have usually attained a high rank in their classes. Fourteen of the Alumni are now studying in theological seminaries.

The necessary expenses are so low as to give the institution a special adaptation to the middle class and to the struggling poor—the great mass of the surrounding population.

Young ladies, qualified to join any of the classes in the College, avail themselves of its advantages.

The privileges of the institution are open alike to all denominations of Christians.

LOCATION.

Maryville is a pleasant and thriving town of about two thousand five hundred inhabitants. There is no saloon within its limits, or in Blount County of which it is the county seat. It is the present terminus of the Knoxville & Augusta Railroad, and is sixteen miles distant from Knoxville. Knoxville is approached from the South and West via Chattanooga and Dalton; from the North and North-west, via Junction City (Danville) and Jellico or via Keathley; from the South-east, via Asheville; from the North-east, via Lynchburg and Bristol.

GROUNDS AND BUILDINGS.

The College grounds consist of two hundred and fifty acres, and for beautiful scenery are not surpassed by any in the country. They are elevated and undulating, covered with a beautiful growth of evergreens and with a noble forest, and command a splendid view of the Cumberland Mountains on the north, and of the Smoky Mountains on the south.

The location is as remarkable for healthfulness as it is for its beauty. The campus affords the choicest facilities for the development of athletics.

On these grounds there are four buildings which were erected at a cost of fifty-five thousand dollars.

The central building is adapted to college purposes and is used exclusively for them. In honor of the founder of the institution it

is called ANDERSON HALL. BALDWIN HALL, named in honor of the late John C. Baldwin, of New Jersey, is occupied by the young ladies. During last vacation it was thoroughly renovated without and within, and with its new paint, papering and wainscotting, presents a very attractive appearance. In this Hall ample and pleasant accommodations for board are provided for all the members of the institution who choose to board there. MEMORIAL HALL is occupied by the young men. In the basement of Baldwin Hall are six kitchens and in that of Memorial Hall are ten, for the benefit of students who prefer to board themselves. These Halls are large and convenient, well-lighted and ventilated, and will accommodate one hundred and thirty students. The LAMAR MEMORIAL LIBRARY building is spoken of on another page.

ADMISSION TO THE COLLEGE.

Candidates for admission to the Freshman Class that have taken their preparatory course elsewhere, will be examined in the studies pursued by the Senior Class of the Preparatory Department of this College, or in their equivalents.

Candidates for admission to the Sophomore, Junior and Senior Classes are examined in the studies that have been pursued by the class which they wish to enter, or in others equivalent.

Those bringing certificates of dismission from another college may, upon proof of their qualifications satisfactory to the Faculty, be admitted to a corresponding standing in this College.

Those students who are absent from their classes for a part of the year must sustain a satisfactory examination in the studies pursued by the class during their absence before they can re-enter it.

Students who desire to pursue only a part of the studies of any course laid down in this catalogue may be allowed to do so in connection with the regular classes by special permission of the Faculty.

Candidates for admission and students who in any examination receive conditions, will be required to cancel them within the time designated by the Faculty.

Every student who offers himself for admission must present a testimonial of good character from some responsible person.

MUSIC.

All students unless they are excused for special reasons, attend a class drill in Vocal Music. These classes meet every alternate day. The results of the drill in this department during the past year have been most gratifying. Mr. Alexander also organized a

band that made such rapid progress as to become very proficient before Commencement. It is expected that the band will be continued as a permanent organization. During the coming year Miss Agnes B. Clemens, who has been perfecting herself in music at the Cincinnati College of Music, will have charge of the department of Instrumental Music.

RHETORICAL DRILL.

The students meet in different classes for one hour every week to present essays and recitations to be criticised by the Professor who has charge of the class. This drill in practical composition and elocution is given all the students of the institution. Occasionally the classes give public exhibitions of their work in composition and delivery.

ELECTIVE STUDIES.

Any student may, if the faculty consent, pursue any study not in his course, provided always that it do not interfere with his regular work.

Whenever a class of sufficient size can be formed, a year's instruction in Hebrew will be given.

Spanish is an elective study.

DEGREES.

The Degree of BACHELOR OF ARTS is conferred upon all graduates of the Classical Department. The Degree of MASTER OF ARTS is conferred upon any BACHELOR OF ARTS who has been engaged in literary or scientific pursuits for no less than three years since his graduation, and who has during that period sustained a good moral character.

The Degree of BACHELOR OF LETTERS will be conferred upon those who have completed the Latin-Scientific Course of Study.

The Degree of BACHELOR OF SCIENCE will be conferred on graduates of the English-Scientific Department.

Students who do not take a regular course may, upon a satisfactory examination, be granted a certificate with regard to their proficiency in the studies they have pursued.

The following degrees were conferred at the last annual Commencement, May 30, 1889. A. B.: Alexander Porter Cooper, Edwin Sheddan Cunningham, Andrew Jackson Harmon, John Franklin Magill, Asa Orndorff and John Cates Wallace. A. M.: Rev. J. E. Rogers, Ph. D.

The following honorary degrees were conferred in September, 1889:

Ph. D.: Revs. Solon Albee, A. M., and U. W. Condit, A. M. A. M.: A. B. Cope.

GRADING.

A uniform system of grading is employed, upon the results of which depends the promotion of the student from one class to another.

The Faculty meet every two weeks of the college year, and receive reports of the work done in all the departments and of the delinquencies of individual students. Every month a record is made of the standing of each student, which if desired, will be sent to his parents or guardian at the end of each term.

RELIGIOUS EXERCISES.

The College is pre-eminently a religious institution. All its instructors are in deepest sympathy with the doctrine that the culture of the soul is of the first importance. The history of the past has been one of gracious revivals. Besides the daily worship conducted in the Chapel, religious services are held every Tuesday evening, at which a professor of the College presides. The Y. M. C. A. and Y. W. C. A., established and conducted by the students, exert a most salutary influence upon the entire College. The Y. M. C. A. meets in its room in Anderson Hall. The Y. W. C. A. meets in the parlors at Baldwin Hall. The past year has been one of prosperity in the history of these Associations.

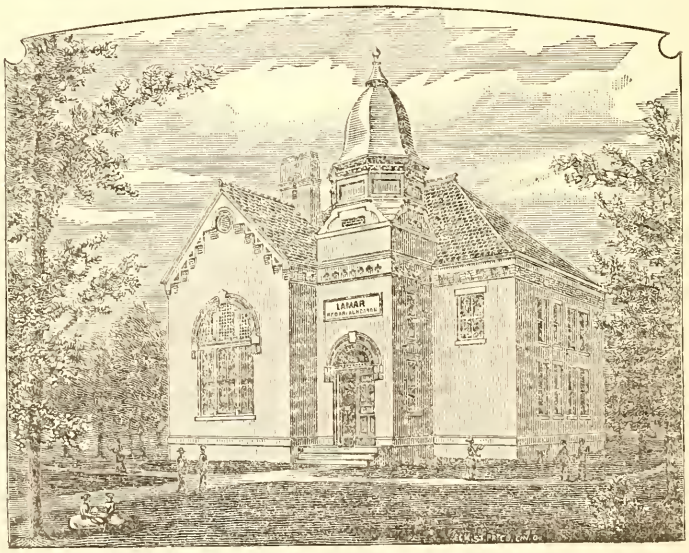
STUDY OF THE BIBLE.

Systematic study of the English Bible has been introduced as a part of the permanent College curriculum. During the past year the Life of Christ, as given in Robinson's Harmony of the Gospels, has engaged attention. It is expected that every part of the Word of God will, in time, be brought under careful examination.

LITERARY SOCIETIES.

The three Literary Societies connected with the institution are of the greatest benefit to those who faithfully avail themselves of the advantages they offer. The BAINONIAN, established in 1875, is composed of young ladies; the ATHENIAN, established in 1868, and the ALPHA SIGMA, established in 1882, are composed of young men. All these organizations have neatly furnished rooms in Anderson Hall, where they meet every Friday night to engage in de-

bates and other literary exercises. All the societies give a public mid-winter entertainment. The ADELPHIC UNION LITERARY SOCIETY, which is composed of the three Societies already mentioned, gives an annual public entertainment during Commencement week.



THE LAMAR MEMORIAL LIBRARY.

Two years ago the Lamar Memorial Library Hall was erected at a cost of five thousand five hundred dollars, which amount was generously provided by three friends of Professor Lamar and of the College. The building is a model in every respect, and even surpasses the expectation of those concerned in its erection. It is a noble and fitting monument. The large memorial window, contributed by the brothers and sister of Professor Lamar, holds the central position.

The Library itself is now one of the largest in East Tennessee. Several hundred volumes have been added during the past year. The entire number of books now on the shelves is over ten thousand. A reference alcove is open six hours every day, while the entire Library is open three hours every day for the drawing of books. The advantages of the Library are entirely free to the students of all the courses. The results of the use of the Library

are manifest in the increased literary culture and general information of the students, and in their better preparation for their forensic exercises.

The Library Committee most gratefully acknowledge the following gifts, made during the current year:

Rev. D. A. Heron (last year), $5; W. H. Henry, Esq., 58 books; Rev. J. E. Rogers, 7 books; S. T. Gordon, 100 books; Miss Nannie McGinley, 1 book; Mrs. Leverett Hull, 3 books; Rev. J. H. Cooper, 1 book; Christian Literature Co., 12 books; Mrs. W. B. Brown, 12 copies Calvinistic Magazine; Mrs. Atwater, pamphlets and periodicals; Mrs. M. A. Lamar, 96 books; Rev. E. W. Stoddard, 112 books; Rev. S. W. Boardman, D. D., 8 books; Prof. G. S. W. Crawford, 2 vols. magazines; Maryville College Club of Japan, 10 books; Miss Hattie Everett, 2 books; J. M. Alexander and W. R. Dawson, 2 books; W. R. Dawson, 1 book; Rev. L. B. Tedford and wife, 14 books; Hon. Theophilus Wilson and Miss H. N. Wilson, pamphlets and books; Prof. J. C. Branner, Ph. D., many pamphlets; Rev. U. W. Condit, Ph. D., 1 book; Western Tract Society, 4 books; H. H. Greene, 2 books; Hon. L. C. Houk, publications of the Government; Head of Departments at Washington, many grants; Rev. A. N. Carson, D. D., interest on note, $10.50; Wm. McIlvaine, 1 book; General Assembly of the Presbyterian Church, 1 book.

JAMES R. HILLS LIBRARY.

During the past two years the students have enjoyed the privileges of the James R. Hills Memorial Loan Library. By a fund of six hundred dollars, generously contributed by Miss Sarah B. Hills, of New York, the College is enabled to rent the text-books used in the institution to those who cannot afford to buy them. The rate charged is one-fifth the wholesale price of each book. The income of rentals is devoted to supplying new books as they are needed. The usefulness of this library can hardly be overesti mated. Mr. W. T. Parham made a generous donation to the funds of this library during the current year.

APPARATUS.

The College possesses a good assortment of Chemical and Philosophical Apparatus of excellent quality. The Chemical Laboratory and the Philosophical Apparatus have been separated, and now each occupies a separate room. While the College is supplied with some expensive apparatus, the plan of illustrating by means of simple and inexpensive apparatus is encouraged, and

the students are allowed, as far as is practicable, to perform the experiments themselves. Experiments in Chemistry and Natural Philosophy are performed at almost every recitation, and are prized more for the principles they illustrate than for the brilliancy of their display.

THE MUSEUM.

The collection of a museum of specimens to illustrate the natural sciences, and of relics and other curiosities to illustrate history and travel, has been begun. Eight cases full of curios are now in place on the second floor of the Library. Contributions to the collections in the museum are solicited. The following gifts are acknowledged with thanks to the donors:

Addison Clemens, geological specimens; Rev. J. E. Rogers, D. D., Oriental newspapers; Rev. R. H. Hooke, Dakota curios; W. L. Brown, Esq., old documents; C. M. Alexander, Indian pipe; Rev. J. H. Cooper, silver ore; Rev. L. B. Tedford, box of valuable curios from India.

NATURAL SCIENCES.

Within the last three years the Course in Natural Science has been completely re-arranged. The student is now started in his investigation of nature and her forces near the beginning of his course. By this plan the student not only acquires a much better knowledge of the subjects considered, but his college life is rendered more pleasant by his acquaintance with the things that surround him. The frequent excursions to the fields, woods and brooks in the vicinity of the College, by classes and parts of classes in search of specimens in the various departments of Natural History, attest the wisdom of the change. Throughout this Department Nature herself is interrogated no less than are text-books.

THE ALUMNI ASSOCIATION.

This Association was formed in 1871, and holds its annual meeting in the College Chapel, on Thursday of commencement week. The officers for the present year are as follows: President, Prof. G. S. Roberts, '86; Vice President, Miss Agnes B. Clemens, '86; Secretary, Rev. J. E. Rogers, D. D., '78.

TERMS AND VACATIONS.

There are two terms in the collegiate year, the first extending from the first of September to about the 23rd of December; and the second from the first of January to the last Thursday of May.

EXAMINERS.

The Synod of Tennessee appointed the following committee to attend the annual examinations for '89–'90; Revs. A. J. Coile, A. F. Whitehead and W. A. Ervin.

EXPENSES.

The endowment enables the College to make its charges very moderate. Students rooming in College buildings pay for room rent $3.00 per session, or $6.00 for the year. The tuition bill is $5.00 per session, or $10.00 for the year. No other charges except for music.

No deductions will be made for absence at the beginning and the close of the terms. College bills must be paid invariably in advance. Until this condition is complied with, no one can become a member of any of the classes. All students who wish to room in Memorial Hall are required to make a deposit of fifty cents with the Janitor. This sum is a pledge that the room taken will not be abused, and it will be returned to the student at the end of the term if no damage has been done the room.

Fuel, lights, and washing, per term, about $10 00
Board in the College Boarding Hall, per week, ... 2 00
Board in private families, including furnished room, fuel, lights, and washing, per week, . . . $1 50 to 3 00
Music—Piano, Guitar, Organ, and Singing—per quarter (twenty lessons), ... 5 00
Use of piano, per term, ... 3 00

The College Boarding Hall has, for four years past, been under the efficient management of Mrs. Mary E. Pierce, of New Market. It is a source of wonder to all who have seen her table, to know that such excellent fare can be provided at a merely nominal charge.

Good and convenient kitchens, furnished with cooking stoves and tables, are provided for such students as may prefer to board themselves. The College does not furnish cooking vessels with the stoves. Students whose circumstances require, may unite in clubs of two or more and board themselves at $1.00 per week.

The rooms in Baldwin Hall are furnished with stoves, bedsteads, wash-stands and tables. The rooms in Memorial Hall were once furnished by the College, but hereafter the young men must provide any article that may be missing. Students must supply their own bedding.

The entire expenses of the students for board, tuition, room-rent, fuel, light, and washing, for the collegiate year, will be from $80.00 to $120.00.

The above estimate of expenses is made on the supposition that two students occupy one room.

ABSENCE FROM THE COLLEGE.

It is very important that students should be present at the beginning of each term and continue to the end of it. Parents are requested not to withdraw their sons and daughters toward the end of the year, without consulting the Faculty. Only in cases of extreme necessity should a student leave his studies just before the close of the collegiate year. Rooms in the College buildings will be reserved especially for those who intend to remain to the end of the year.

ADMINISTRATIVE RULES.

Students are not allowed to keep fire-arms in their rooms.

The use of tobacco on the College grounds and in the College buildings is forbidden, and no student addicted to its use will be allowed to room upon the College premises.

All unexcused delinquencies are registered; and when the number amounts to five, or any number more than five and less than ten, notice thereof is given to the student, and to his parents or guardian. When the number of unexcused delinquencies amounts to ten, the student ceases to be a member of the College.

Students are also dismissed whenever, in the opinion of the Faculty, they are pursuing a course of conduct detrimental to themselves and to the College.

Students are not allowed to absent themselves from the College without permission from the Faculty.

Students from other institutions cannot be admitted into this College, unless honorably dismissed by their former instructors.

Prayers are attended in the College Chapel in the morning, with the reading of the Scriptures and with singing; and the students are required to attend public worship on the Sabbath, and to connect themselves with a Bible Class in some one of the churches in town.

BEQUESTS AND DEVISES.

Since each State has special statutory regulations in regard to wills, it is most important that all testamentary papers be signed,

witnessed, and executed according to the laws of the State in which the testator resides. In all cases, however, the legal name of the corporation must be accurately given, as in the following form:

I give and bequeath . . . . . to the "BOARD OF DIRECTORS OF MARYVILLE COLLEGE" at Maryville, Tennessee, and to their successors and assigns forever, for the uses and purposes of said College, according to the provisions of its charter.

ANNUAL ADDRESS.

The Rev. George N. Boardman, D. D., L. L. D., Professor of Systematic Theology in the Chicago Theological Seminary, and brother of President Boardman, will deliver the annual address before the Adelphic Union Literary Society, May 26, 1890.

NEW BUILDING.

By the munificence of Mrs. Jane F. Willard the trustees will be enabled to add during the coming year another building to those that already crown the College hill. It will be a residence to be occupied by the President of the institution.

THE GEORGE HENRY BRADLEY SCHOLARSHIP.

A scholarship of $1,000. the income of which is to be used in aid of needy students, has been founded by Mrs. Jane Loomis Bradley, of Auburn, N. Y., to be called the "George Henry Bradley Scholarship," in memory of the only son of the donor and of the late Silas L. Bradley, President of the Bank of Auburn.

It is hoped that this may be followed by a goodly number of such scholarships. They are much needed.
